PROFILE

Enthusiastic and motivated Computer Science student with a passion for innovative technology and its applications. Possessing a solid foundation in JavaScript. Demonstrated ability to adapt quickly to new technologies and eager to contribute to cutting-edge projects. However, my work experience is limited. Despite this, I have developed strong skills in teamwork and problem-solving. Seeking opportunities to apply theoretical knowledge in practical settings and contribute to the advancement of technology.

PROJECTS

https://github.com/eronhetemi
Tech Website: 1 January - Current

- "A tech website is a website that primarily features technological products."
- "It is being created with 4 technologies: HTML, CSS, JS, and PHP."
- "All parts are responsive, and there are a total of 6 interconnected pages."
- "The distinguishing feature is that you have the ability to log in as a regular user and as an administrator, where typically the administrator has broader access than the regular user."

STICK GAMES
https://github.com/eronhetemi/Stick-games-
8 Jan - 21 Feb

- "It is functional, but it cannot register its users. However, each time you log in, you can log in as a new player."
- "Stick games is a very popular game where the majority of the code is written in the JavaScript language."
